

Pulsator 2-Electrode Probes

Improving Lives

It's Here!

The latest in bull probe technology, the 2-electrode probe.

Developed and manufactured by Lane Manufacturing, continuing the 40+ year tradition of being the leader in semen evaluation equipment innovation. In extensive testing there has been less reaction to the ejaculation process than with the 3-electrode probe.

The 2-electrode probe is offered in four configurations:

- 60mm straight handle
- 75mm straight handle
- 60mm upright handle
- 75mm upright handle
